

Design Your Own FAERIE TRADING CARDS

Have you been lucky enough to see any faeries yourself? Were they friendly and nice, or mean and scary? Try drawing them in the spaces below. Then, write down on the back what they were called and describe what they might be like. When you're finished, cut out the cards and use a gluestick or double-sided tape to put the fronts and backs together to complete your cards. You can even photocopy them and trade them with your friends!
